

The Fine Wine Exchange

Liv-ex Indices

Due to our unrivalled access to fine wine price data, Liv-ex indices are widely acknowledged as the fine wine industry's benchmarks. You can subscribe to an existing Liv-ex index or create a bespoke index in conjunction with us. Component price data is also available for any of the indices, with historical prices going back to January 2004 (further on request).

- **Choose from a wide range of existing indices**
- **Create your own index – you choose the wines**
- **Updated monthly**
- **Liv-ex Best List Price or Mid Price**
- **Full component price data supplied if required**
- **Licensing deals available – including the Liv-ex 100 and 500 Fine Wine Indices**
- **Historical price data available**
- **Delivered in Excel format**

All index components are priced using the Liv-ex Best List Price unless otherwise stated.

The Liv-ex 100 Fine Wine Index

The Liv-ex 100 Fine Wine Index is the fine wine industry's leading benchmark. It represents the price movement of 100 of the most sought-after fine wines for which there is a strong secondary market and is calculated monthly. The index is calculated using Liv-ex Mid Prices and is then weighted to account for original production levels and increasing scarcity as the wine ages. Liv-ex 100 subscribers gain access to the full details of the component wines, including weightings and Mid Prices – allowing you to benchmark your portfolio against the market. Licensing deals for marketing purposes are also available.

The Fine Wine Exchange

The Liv-ex 500 Fine Wine Index

The Liv-ex 500 Fine Wine Index has the broadest base of all the Liv-ex indices and is designed to reflect price trends in the wider fine wine market. Unlike the Liv-ex 100 any commonly traded wine is eligible, meaning popular wines from Bordeaux that don't fit the more stringent Liv-ex 100 criteria are included. The majority of the index consists of Bordeaux wines – a reflection of the overall market – although it also includes wines from Burgundy, the Rhone, Champagne, Port, Italy and the New World.

The Liv-ex Claret Chip Index

The Liv-ex Claret Chip tracks the top scoring Bordeaux First Growth. Aimed at professional investors, it is designed to be fully investable and completely transparent in its formulation. Valued with Liv-ex Mid Prices, it includes all the First Growths from the last 15 years that have scored 95 points and above from www.erobertparker.com (final bottle scores only).

The Liv-ex Champagne 25 Index

The Liv-ex Champagne 25 tracks the world most sought after Champagnes. Based around the leading vintages of Dom Perignon, Louis Roederer Cristal and Krug, this is the perfect index for those with large stocks of Champagne or a strong Champagne client base.

Liv-ex Regional Indices

Liv-ex can supply a variety of indices tracking the performance of wines from a single region, such as the Bordeaux, Burgundy, Sauternes, Italy and the Rhone.

Bespoke Indices

Create your own index in conjunction with Liv-ex and have it updated monthly. You can track the performance of your portfolio, watch the ups and downs of a particular vintage or focus on a sector of the market with particular importance to you.

Please contact Jack Hibberd, Research Manager, at jack@liv-ex.co.uk or +44 (0) 20 7228 2233 for more information on Liv-ex Data Projects.

Liv-ex (The London International Vintners Exchange) is the world's leading exchange for fine wine. Founded in 1999, Liv-ex runs an internet and phone based trading and settlement platform for fine wine merchants and professionals. Our subsidiary, Vine international, also provides a specialist consolidation, storage and freight forwarding service for importers and exporters of fine wine.
